Projected Economic Forecast 2019 - 2021

TOTAL ECONOMIC FORECAST

It is estimated that the total economic impact of Fort Riley will remain stable, pending any changes to authorized or assigned troop strength numbers.

CONSTRUCTION FORECAST

Continue the renovations of the Fort Riley museums (~\$14M – funded by U.S. Army Center of Military History) and the In- and Out-Processing Center, new renovations of a child development center and three barracks are a few of the ongoing Restoration and Modernization (RM) projects taking place this year. SRM will continue to be the focus of construction efforts in the coming years, with an estimate of around \$25 million next year. SRM construction will modernize unit operations and maintenance facilities to support Army Force Restructuring (ARSTRUC), repair road networks and perform building infrastructure upgrades.

Future years are projected to remain steady at similar funding levels. Several Military Construction (MILCON) projects may be funded in the coming years. These include construction of an infantry platoon battle course range complex, as well as planning and initial design work for a future helicopter maintenance hangar and replacement of the Marshall Army Airfield air traffic control tower. Phase I of an Energy Savings Performance Contract (ESPC) will invest approximately \$38 million in Fort Riley buildings and infrastructure this year by upgrading lighting, heating, ventilation and air conditioning systems with state-of-the-art, energy-efficient components. ESPC Phase II (~\$25M) is scheduled to start 2nd QTR of FY19.

Projected Population Forecast 2019 - 2021

SOLDIER POPULATION

Fort Riley authorized troop strength numbers have reduced in recent years as a result of mandated DOD force reductions. Assigned strength numbers are expected to remain stable, around 15,000 in FY19/20. However, installation officials aggressively continue DOD recruitment of an additional brigade by highlighting the available land at Fort Riley, the quick mobility to leave the area for deployments and strong community partnerships.

FAMILY MEMBER POPULATION

With the surrounding Flint Hills area offering Blue Ribbon schools, low unemployment numbers and quality community area services, it is expected the number of family members accompanying their Soldiers to Fort Riley will remain stable.

CIVILIAN POPULATION

The civilian strength consists of several categories including, Department of the Army (DA) civilians, federal and non-federal civilian employees and contractors working at Fort Riley. While it is hopeful military strength numbers at the installation will increase in the future, such an increase is not expected to directly correlate to civilian employee population growth.

Infrastructure

Fort Riley has access to 34,000 additional training acres (prairie land) at the Great Plains Joint Training Center in Salina, Kansas, 60 miles away. This area is the largest inert bombing range east of the Rockies and provides exceptional joint training opportunities for heavy forces' collective, distributed, Joint (10th Air Support Operations Squadron - JTACS/FOs and Joint Fires), Inter-organizational, and Multinational (JIM) training in coordination with our Kansas National Guard partners.

| | <u>Acreage</u> | <u>% Total Acreage</u> |

Deployment – Rail Yard

When driving past the rail tracks in Camp Funston, it's not unlikely to see a red locomotive pulling cars along the tracks for several hours a day and multiple weeks at a time. Logistics Readiness Center railhead staff operate as a two-man team to ensure the equipment brigades use and need is available make it safely to their training installation or port destination for each deployment.

Fort Riley can deploy Soldiers and equipment of a brigade-sized element in 96 hours with an estimated throughput of 400 rail cars a day.

- 13 loading spurs, 5 double wide end loading ramps, 3 single wide loading ramps and 3 side loading ramps
- 12 light banks: 6 each on the new sighting yard (2 each eastside yard and 4 each westside yard)
- Reinforced docks with shock absorbers – three docks for loading equipment that will be shipped by truck, two on Custer Hill and one at Camp Funston
- Movement Control Center and Control Tower
- 2 engines to move train to loading facilities
- Weighing facilities
- Side rail holds 400 cars
- All spurs have additional lighting that illuminates at car deck height to assist tie down of vehicles after dark

Deployment capability data provided by the Fort Riley Logistics Readiness Center.

Deployment – Airfields

Fort Riley's robust deployment capability is supported by 3 local airfields available for simultaneous use.

Manhattan Regional Airport features a 460,000 sq. ft. Army Deployment Ramp which allows Fort Riley to use the facility as a Rapid Deployment Facility for a Quick Reaction Force (QRF) mission in support of Homeland Defense. The apron area has been designed to allow two C-17 aircraft to park simultaneously.

- Primary commercial service airport – more than 10,000 enplanements per year
- Two runways – 7,000 feet long and 5,000 feet long.

Salina Regional Airport serves as a forward operating location for military aviation units deploying to Saline County and the Great Plains Joint Training Center operated by the Kansas National Guard.

- Primary runway is 12,300 feet long
- Crosswind runway is 6,500 feet long
- 2.7 million sq. ft. of ramp space
- Excess of 10,000 sq. ft. of hangar space
- Primary runway, taxiway and aircraft parking apron can support all USAF transport aircraft in the AMC fleet.

Topeka Regional Airport (Forbes Field) has two runways and more than 2 million square feet of apron space available for transient military, general aviation and commercial aircraft.

- Primary runway is in excess of 12,800 feet long.
- Crosswind runway is 7,000 feet long.

Training

Fort Riley was the first installation to field the Ground-Based Sense and Avoid (GBSAA) radar system to support Gray Eagle Unmanned Aerial System (UAS) operations within the National Airspace System. This significantly increases the operational efficiency, the margin of safety and the potential access to additional training airspace.

Safety - Federal Employee Compensation Act (FECA)

Through the efforts of the Soldiers, Department of the Army civilians and other Fort Riley community members, USAG Fort Riley received two safety awards from the Secretary of the Army and Chief of Staff of the Army and Army IMCOM during a senior safety symposium held in June 2018. Awards received were the Exceptional Organization Safety Award and the Excellence in Safety – Junior Civilian Category.

| | <u>MEDICAL COST</u> | <u>COMPENSATION COST</u> | <u>TOTAL</u> |

| 2018 | \$50,733.00 | \$153,337.06 | \$204,070.06 |

Cost-Conscious, Safe and Efficient Installation

- Fort Riley has been recognized with the SA/CSA Exceptional Organization in Safety – Garrison Category three (3) of the last four (4) years.
- DPTMS and Garrison Safety recognized with the Army Risk Management Award in 2018.
- Fort Riley has seen a steady decrease in FECA costs from the 2014 high. 5-Year Average ~\$177K with 9% annual decline from CBY14 – CBY17.
- FECA cost is a significant data point for being selected for safety achievements.
- Mr. Hearron, Director of Garrison Safety, recognized with **2018 IMCOM Stalwart Award**.

Environment

Hay and Crop Lease Partnership

Agricultural use of Fort Riley's training lands occurs when and where it is compatible with the military mission. Currently, the DPW Environmental Division manages 1,600 acres of grain-producing firebreaks and 38,000 acres leased for cool- and warm-season hay production.

- Maintains open space for military training
- Reduces potential for wildfires
- Suppresses woody plant encroachment
- Reduces expense for grounds management
- Supports regional demand for livestock feed

Joint Land Use Study (JLUS)

A JLUS is a collaborative study conducted by city and county officials, local residents, key stakeholders and the military installation to identify compatible land uses and growth management guidelines near the installation. The process encourages them to act as a team in to prevent or limit any encroachment issues caused by future mission expansion or local growth. The study is funded primarily through the DOD Office of Economic Adjustment (OEA) but is created by the community and for the community.

Housing - On-Post Residential

In support of the Department of Defense (DOD) Privatized Housing Solar Challenge initiative, approximately 1,260 homes at Fort Riley received solar panels as part of a Corvias portfolio-wide initiative across the U.S. at no cost to the military. This 2018 effort provided military housing projects rate stabilization resulting in utility savings reinvested into project scope, and increased energy security while eliminating approximately 92,000 tons of carbon emissions each year.

Basic Allowance for Housing (BAH)

Children in Wakefield, Kansas, are now enjoying playground equipment previously used by Fort Riley children. In a 2018 partnership between the community and Corvias, playground equipment from demolished on-post neighborhoods was donated to the city. In total, four playground sets were transferred to Wakefield, a nearby city which is home to many Fort Riley veterans, Soldiers and civilian professionals and their families.

Fort Riley's BAH rate is the lowest among Division-level installations, making it cost effective and fiscally beneficial to the DOD and Army.

Housing - Army Barracks Management Program (ABMP)

Army Barracks Management Program (ABMP) is part of the Army plan to improve the quality of life for single Soldiers and to standardize the management of barracks Army-wide. Goals of the program include improving barracks utilization, managing vacant barracks space during deployment, reducing maintenance response time, decreasing building damages and extending the life of the facilities.

- 6,200+ spaces managed at company level
- 66 buildings
- 9 Soldier community buildings
- Footprints down to company level
- Basic repair & upkeep performed at company level
- Sustainment and modernization phased out to 2030
- Soldier accountability and responsibility

Community Contribution:

IHG is the host of a Wednesday night social, averaging 80-100 persons per week. This open-to-all event serves as an installation collaborative effort that provides a free meal (courtesy of IHG) and brings together agencies from on and off post to help transitioning service members and their families with resources and guidance.

Continuous Process Improvement (CPI)

Fort Riley uses CPI to identify and reduce inefficiencies within organizations. Process improvement is important during the current fiscal restraints and smaller workforces. CPI focuses on ways to cut costs and improve the time it takes to complete a process.

Cost-Conscious and Efficient Installation

- In FY17, the Fort Riley CPI program was reinvigorated with efforts to capture and validate unrecorded cost efficiencies being performed across in the installation.
- During 2018, the Equal Employment Office (EEO) captured and recorded an official CPI cost avoidance of \$17.4M (FY14-FY18) by resolving complaints without going through the formal complaint process.

Community Partnership

Bulk Road Salt Purchase - Intergovernmental Support Agreement (IGSA) with the City of Manhattan, Kansas

Recipient of the
2018 Army Community
Partnership Award

Signed in August 2018, this IGSA enables cost savings of ~\$89,000 annually for Fort Riley and a cost avoidance for the City of Manhattan through use of the Fort Riley facility for contingency bulk salt storage in lieu of the need to build a contingency salt storage facility.

Kansas Employment Exploration Program (KEEP) *for Transitioning Service Members / SFL-TAP Participants*

KEEP is a Fort Riley Soldier for Life / Transition Assistance Program (SFL-TAP) initiative designed to encourage transitioning Service Members to settle down and remain in Kansas after completing their military service.

Attendees receive community tours and are introduced to employers and city leaders to discuss job opportunities, salaries, and the quality of life options available to them in the community.

Key highlights / mutual benefits include:

- Provides Kansas communities with skilled labor force
- Reduces unemployment among transitioning Soldiers
- Increases community veteran/veteran-retiree populations and associated economic impacts

2017-18 Participating Communities

- Emporia, Kansas
- Manhattan, Kansas
- McPherson, Kansas
- Olathe, Kansas
